

# COMMON GCP INSPECTION FINDINGS 2011

**Foo Yang Tong**  
Director  
Clinical Trials Branch  
Health Products Regulation Group  
HEALTH SCIENCES AUTHORITY  
SINGAPORE

# OUTLINE

- GCP Inspection Framework
- Objectives
- Classification of GCP Inspection Findings
- Common GCP Site Inspection Findings (2011 vs 2009-2010)
- Quality Improvement Initiatives

# GCP Inspection Framework

- Launched in Sep 2009
- First GCP Site Inspection done in Nov 2009
- Completed 29 GCP Site Inspections to date:
  - ▶ 2009-2010 : 13 (Protocol-specific)
  - ▶ 2011 : 15 (Protocol-specific), 1 (Systems on ICF and IP)

# Objectives of GCP Inspection

- ▶ To safeguard the rights, safety and well-being of trial subjects.
- ▶ To verify the quality and integrity of the clinical trial data submitted to the Regulatory Authority.
- ▶ To assess compliance to protocol and applicable regulations, guidelines and standard operating procedures for clinical trials.

**GCP INSPECTION CRITERIA**

# Classification of GCP Inspection Findings

~ adopted from EMEA SOPs on GCP Inspection.

- **Critical:** Conditions, practices or processes that adversely affect the rights, safety or well being of the subjects and/or the quality and integrity of data.
- **Major:** Conditions, practices or processes that might adversely affect the rights, safety or well-being of the subjects and/or the quality and integrity of data.

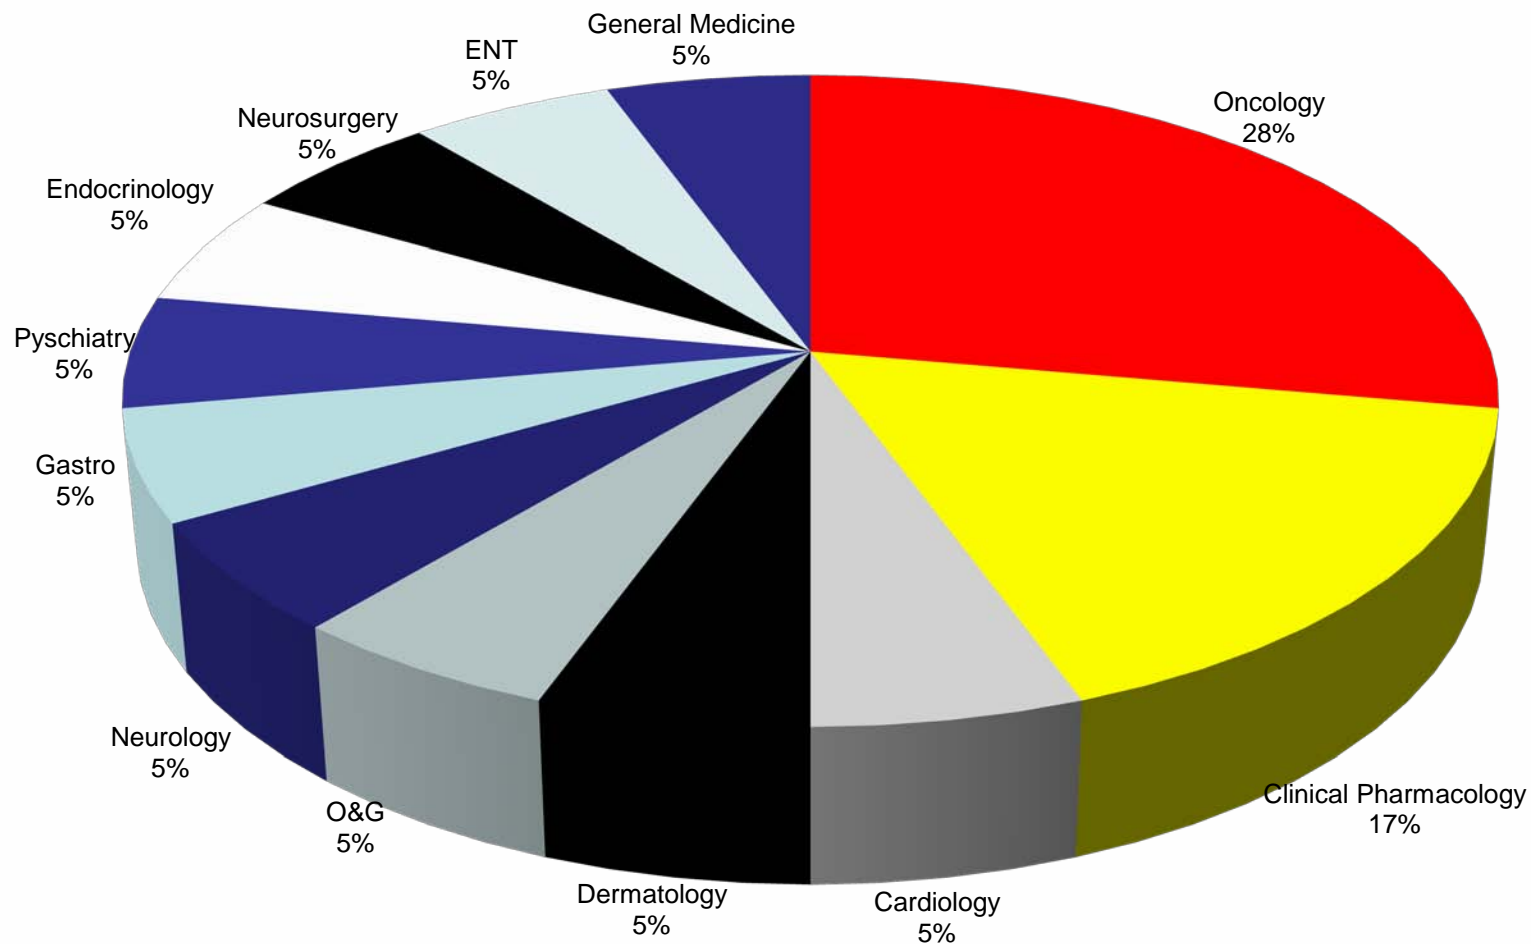

# Classification of GCP Inspection Findings

~ adopted from EMEA SOPs on GCP Inspection.

- **Other:** Conditions, practices or processes that would not be expected to adversely affect the rights, safety or well being of the subjects and/or the quality and integrity of data.
- **Comments:** The observations might lead to suggestions on how to improve quality or reduce the potential for a deviation to occur in the future.

# DISTRIBUTION OF THERAPEUTIC AREAS 2011 (N = 16)

# CLASSIFICATION OF GCP INSPECTION FINDINGS

■ 2009-2010 (N=95) ■ 2011 (N=62)

# **GCP Site Inspections (2011)**

## ***CRITICAL GCP Inspection Findings***

- **3 CRITICAL GCP Inspection Findings:**
  - ▶ Informed Consent
  - ▶ Subject Recruitment
  - ▶ Investigational Product

# GCP Site Inspections (2011)

## CRITICAL GCP Inspection Findings

- **Informed Consent**

Informed consent process was noted to be inadequate:

- ▶ *Use of Short Form Consent for subjects who had been unable to read the English ICF, but able to read the Short Form Consent in another local language.*

*[Ref: Medicines (Clinical Trials) Regulations 11(4), SGGCP 2.9, 4.8.8]*

- ▶ *Inappropriate use of impartial witness whereby a Chinese person had acted as an impartial witness to a subject literate in Tamil.*

*[Ref: Medicines (Clinical Trials) Regulations 11(5), SGGCP 4.8.9]*

- ▶ *Subjects did not personally date the ICF themselves.*

*[Ref: Medicines (Clinical Trials) Regulation 11(4), SGGCP 4.8.8]*

# GCP Site Inspections (2011)

## *CRITICAL GCP Inspection Findings*

- **Subject Recruitment**

Subjects enrolled in a clinical trial were dispensed the Investigational Product prior to confirmation of eligibility.

*[Ref: SGGCP 2.3, 4.5, 4.6.5, 4.7]*

# GCP Site Inspections (2011)

## CRITICAL GCP Inspection Findings

- **Investigational Product (IP)**

IP management was noted to be inadequate.

- ▶ *Study Pharmacist inadequately qualified to perform randomization and manage IP.*  
[Ref: SGGCP 2.5,2.8,4.2.3]
- ▶ *Active IP was identifiable via code and colour of capsule thereby compromising the study blind.*  
[Ref: SGGCP 5.13.1 and 5.13.4]
- ▶ *CRC had received the bulk Active and Placebo IP bearing different batch numbers and expiry dates despite being blinded to the clinical trial.*  
[Ref: SGGCP 2.12]
- ▶ *Lack of documentation of IP Handling from IP Receipt to IP Destruction.*  
[Ref: SGGCP 2.12, 5.14.3]

# GCP Site Inspections (2011)

## CRITICAL GCP Inspection Findings

- **Investigational Product (IP) – cont'd**

IP management was noted to be inadequate.

- ▶ *Lack of SOPs and documentation of IP Re-packaging in accordance with GMP guidelines, where applicable.  
[Ref: SGGCP 2.12, 5.13.1, 5.13.4, 5.14.3]*
- ▶ *Discrepancies noted in design and completion of IP Accountability Logs  
[Ref: SGGCP 2.10, 4.6.3, 8.3.23]*
- ▶ *Lack of documentation of IP Destruction  
[Ref: SGGCP 4.6.3, 8.4.2]*
- ▶ *IP had not been labelled in accordance with applicable regulations and guidelines.  
[Ref: Medicines (CT) Regs 18(1) and SGGCP 4.6.3]*

# **GCP Site Inspections (2011)**

## ***CRITICAL GCP Inspection Findings***

- Outcome of GCP Site Inspection:
  - ▶ PI terminated the clinical trial.
  
- In comparison with 2009-2010:
  - ▶ 1 Critical GCP Inspection Finding
    - Significant protocol non-compliance detected.
    - PI terminated clinical trial.

# % MAJOR GCP INSPECTION FINDINGS

■ 2009-2010 (N=21) ■ 2011 (N=20)

# GCP Site Inspections (2011)

## MAJOR GCP Inspection Findings

- **Investigational Product (IP):**
  - ▶ **For sites involved in IP re-packaging:**
    - **5 out of 8 MAJOR GCP Inspection Findings concerning IP:**
      - *Lack of delineation of roles and responsibilities of blinded and unblinded study staff.*  
[Ref: Medicines (CT) Regs 19(1), SGGCP 4.1.5, 4.2.3, 4.6.2, 4.9.1, 8.3.24]
      - *Lack of written instructions for manufacturing, handling and storage of IP in accordance with GMP guidelines, where applicable.*  
[Ref: SGGCP 2.10, 2.12, 2.13, 4.6.3, 4.6.4, 4.6.5, 5.13.1, 5.13.4, 5.14.3, 8.2.15, 8.3.8]

# IP Re-packaging

- ***PICS Annex 13 : Sections 23-25:***

- Delegated and trained study staff*
- Line clearance*
- In-process control checks (e.g. witness)*
- Label re-conciliation*
- Documentation*

# GCP Site Inspections (2011)

## MAJOR GCP Inspection Findings

- **Investigational Product (IP):**
  - ▶ For sites involved in in-patient administration of IP:
    - *Lack of delegation and training of nursing staff involved in in-patient administration of IP.*  
[Ref: Medicines (CT) Regs 19(1), SGGCP 4.1.5, 4.2.3, 4.6.2, 4.9.1, 8.3.24]
    - *Lack of written instructions for handling and storage of IP.*  
[Ref: SGGCP 2.12, 4.6.4, 4.6.5, 5.14.3]

# GCP Site Inspections (2011)

## MAJOR GCP Inspection Findings

- **Informed Consent:**

- ▶ Subject had signed an unapproved version of the ICF.

*[Ref: Medicines (CT) Regs 11(4), SGGCP 4.4.1]*

- ▶ Inappropriate use of impartial witness.

*[Ref: Medicines (CT) Regs 11(5), SGGCP 4.8.9]*

# GCP Site Inspections (2011)

## *MAJOR GCP Inspection Findings*

- **Subject Recruitment:**
  - ▶ Breach in subject privacy and confidentiality.  
*[Ref: SGGCP 2.11]*

# % OTHER GCP INSPECTION FINDINGS

■ 2009-2010 (N=73) ■ 2011 (N=39)

# GCP Site Inspections (2011)

## *OTHER GCP Inspection Findings*

- **Investigator Site File:**
  - ▶ **Missing Essential Documents:**
    - *Calibration and Maintenance Records for equipment*  
[Ref: SGGCP 8.2.12, 8.3.7]
    - *Record of retained body fluids / tissue samples*  
[Ref: SGGCP 8.3.25]

# GCP Site Inspections (2011)

## *OTHER GCP Inspection Findings*

- **Investigational Product (IP):**

- ▶ **IP Documentation did not comply with SGGCP 4.6.3:**

- *IP Receipts*
- *IP Inventory Logs*
- *IP Accountability Logs*
- *IP Return and / or Destruction Logs*

***NB: Include the dates, quantities, batch numbers, expiration dates (where applicable), unique code numbers assigned to the IP and subjects.***

- ▶ **Lack of IP Storage Records**

[Ref: SGGCP 2.12, 4.6.4, 5.14.3, 5.14.5, 8.2.15, 8.3.8]

***NB: IP Storage temperature should be monitored during IP Shipment and IP storage on site!***

# **GCP Site Inspections (2011)**

## ***OTHER GCP Inspection Findings***

- **Informed Consent:**
  - ▶ **Lack of documentation of the Informed Consent Process.**
    - *SGGCP 4.8.6*
  - ▶ **Subject / Impartial Witness / Person Obtaining Consent did not personally date the ICF.**
    - *SGGCP 4.8.8*

# Quality Improvement Initiatives

- CTB FAQs uploaded on HSA website
- Meetings with cluster Research QA and monitoring staff
- Observation of GCP Site Inspections
- From The GCP Inspector's Desk Newsletter
- Upstream consultation on IP management
